

What are the advantages of web and data collaboration?

Collaborating on documents online can save your company both time and money. You no longer need to rack up postage costs mailing documents back and forth, and can discuss changes with participants at any time from anywhere.

What is web conferencing?

Quickconnect's [WebView](#) allows participants to simultaneously view, comment, and edit documents and presentations online.

[WebView](#) is ideal for long-distance customer service training, sales and marketing presentations, and collaboration on documents.

What is WebStream?

[WebStream](#) is an online audio streaming application that can be used for standard conference calls, high-profile events, distance learning classes, seminars, interviews and much more. [WebStream](#) lets you reach thousands of listeners at once for less than the cost of a standard conference call. [WebStream](#) is listen-only and reduces the risk of unscheduled interruptions and other distractions

Can you train me how to use WebView?

Yes. Quickconnect gives customers a detailed Quick Reference Guide that provides easy to follow, step-by step visual instructions on using [Webview](#) and its features. Click here to access the [WebView Quick Reference Guide](#).

Do I need any special software to use these services?

The hosts and participants should download the [WebView](#) software before the start of their first collaboration session. Aside from the [WebView](#) software, your participants should have an Internet-accessible computer, a browser, and a telephone.

How many people can collaborate at once?

[WebView](#) supports hundreds of people collaborating simultaneously.

Will WebView work through a firewall?

[WebView](#) is firewall-friendly.

Does everyone work on the document at once?

No. To maintain an ordered collaboration session, only one person may actually work on a document at a time. The host of the meeting has complete control over who can contribute.

Which applications can I share?

You may share any application you have installed on your computer at anytime during the meeting

Is there a quick way for me to solicit feedback from other participants?

Yes. [WebView](#) comes with an optional hand raising button that allows participants to vote on proposed changes or other important matters that arise during your meeting. You can also utilize [WebView's](#) chat feature or simply ask for feedback over your teleconferencing link

Is operator assistance available?

Yes. You can always reach a Quickconnect operator by dialing *0. For technical questions, you can request live help from within the [WebView](#) program.

Can other collaborators download the finished product?

[WebView](#) collaborators can download, upload, and transfer files with ease, without leaving the online session.

Can I brand the presentation with my company's look and feel?

[WebView](#) can easily be modified to reflect your company's unique branding.

Does [WebView](#) support video conferencing?

Yes. All you need is a webcam video.
